Make More Putts

The Black Hawk Putter is designed to do just one thing.

Make More Putts.

It's not a copy (like 700 other putters are) of Karsten's work.
It's not meant to be "cute", so if you're looking for a prop, forget it.
It's not a work of art, unless you consider a 70 footer going in beautiful.
It can't double as a "wingman", so forget impressing the chicks.
It doesn't have a logo on it, because it doesn't need one.
It doesn't distract you with funky graphics.
Forget collecting them on ebay.
Just Putt with it.
And Win.
